

Fredrik Nyström - Peter Strömberg

After our 1D opening we can respond 1M with a 3* suit and even 0 hcp. Usually it is a normal 1M response, 4+ suit and 6+ hcp. If we have as little as 0 hcp we may bid 1M because we are afraid of getting stuck in 1D, usually not for tactical reasons. We may bid on 3* card suits because one of the following reasons:

- 1 We are afraid of getting stuck in 1D
- 2 If we bid 1NT partner might raise to 2NT with max
- 3 We are looking for a 4-3 fit.
